SOMEWANG

BRIEF INTRODUCTION

Somewang Packaging is an innovative packaging solutions provider with over 20 years of industry experience, specializing in high-quality, customizable plastic packaging for beauty, personal care, healthcare, and household brands worldwide.

Headquartered in Ningbo, China, our modern production facility spans over 50,000 square meters, equipped with advanced automation and high-precision machinery. With an annual capacity of tens of millions of units, we ensure fast turnaround times and consistent quality for high-volume orders.

Our product range includes bottles, jars, dispensers, tubes, beauty packaging, and more. Backed by in-house teams across design, engineering, mold making, production, and international sales, we provide a true one-stop service — from concept development and prototyping to mass production and delivery.

Driven by innovation and sustainability, Somewang is actively developing eco-friendly packaging solutions and holds multiple patents. We are committed to helping brands create packaging that is visually appealing, highly functional, and environmentally responsible.

Our mission is simple: *Make Packaging Easy*

JAR

JAR

PET Jar Size
PET Jar
PP Jar
Supplement Jar

A cosmetic jar is a wide-mouthed container, typically made of glass or plastic, designed to store thick-textured skincare products such as face creams, moisturizers, and masks, which require hygienic and airtight packaging to maintain their efficacy and prevent contamination.

Its sealed structure helps preserve the formula's freshness and stability, while the accessible design allows users to scoop or apply products easily during daily routines.
